## Single-user licenses for educators and students

### SPSS Statistics GradPack™

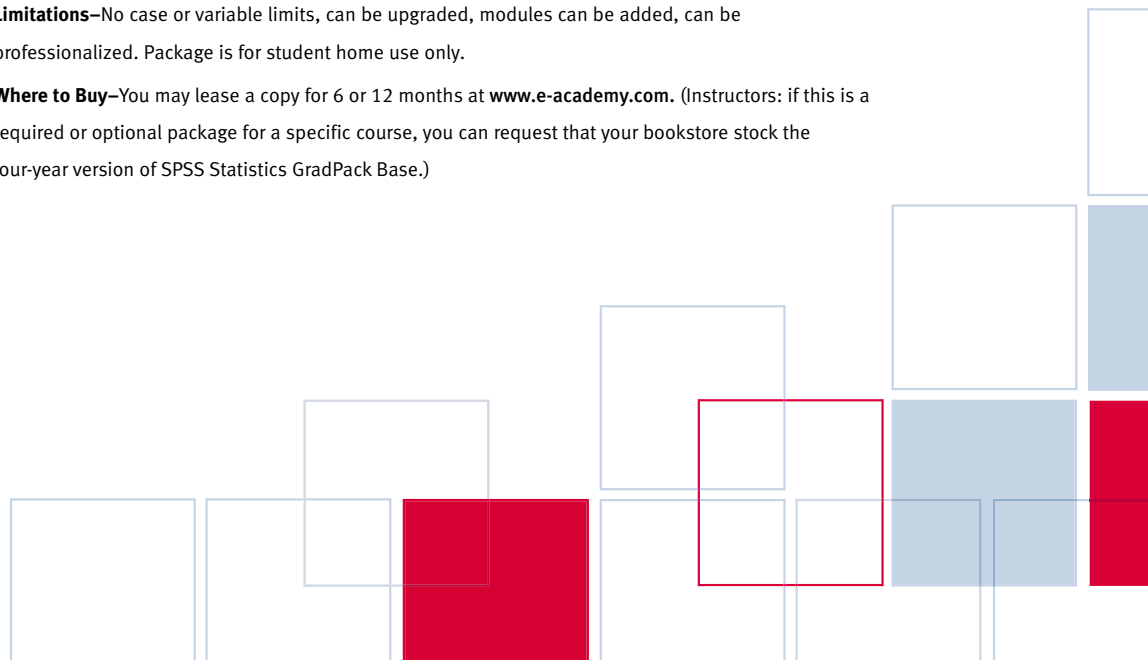

For students in advanced quantitative courses or those conducting graduate-level research. This powerful statistics package gives students the advanced statistics and techniques unavailable in most student software packages.

- **Eligible Participants**—Students
- **Tools Included**—SPSS Statistics Base plus: SPSS Advanced Statistics, SPSS Regression, and Amos™ Structural Equation Modeling (Amos available only on Windows®).
- **Platform**—Microsoft® Windows, Mac®, and Linux®
- **Limitations**—No case or variable limits. Package is only for use on students' personal computers.
- **Where to Buy**—Four-year licenses of SPSS Statistics GradPack are available at campus bookstores and online at: [www.journeyed.com](http://www.journeyed.com), [www.academicssuperstore.com](http://www.academicssuperstore.com), [www.studentdiscounts.com](http://www.studentdiscounts.com), and [www.gradware.com](http://www.gradware.com). You may also lease a copy for 6 or 12 months at [www.e-academy.com](http://www.e-academy.com). (Instructors: if this is a required or optional package for a specific course, you can request that your bookstore stock the SPSS Statistics GradPack.)
- **Additional Information**—This package can be upgraded to a professional version with added modules at a special academic price.

### SPSS Statistics GradPack™ Base

For undergraduate statistical courses or MBA executive programs. SPSS Statistics GradPack Base includes the full version of SPSS Statistics Base with no case or variable limits.

- **Eligible Participants**—Students
- **Tools Included**—SPSS Statistics Base
- **Platform**—Windows, Mac, and Linux
- **Limitations**—No case or variable limits, can be upgraded, modules can be added, can be professionalized. Package is for student home use only.
- **Where to Buy**—You may lease a copy for 6 or 12 months at [www.e-academy.com](http://www.e-academy.com). (Instructors: if this is a required or optional package for a specific course, you can request that your bookstore stock the four-year version of SPSS Statistics GradPack Base.)

## SPSS Statistics Student Version™

For students beginning to learn statistics. With this version, students can spend their time learning statistics rather than software, thanks to the easy-to-use interface and comprehensive online help system.

- **Eligible Participants**—Students
- **Tools Included**—SPSS Statistics Base
- **Platform**—Windows
- **Limitations**— This software allows up to 50 variables and 1,500 cases. SPSS Statistics command syntax and scripting and automation capabilities are unavailable. Add-on modules cannot be used with this package. Package is for student home use only.
- **Where to Buy**—The SPSS Statistics Student Version is available at campus bookstores. (Instructors: if this is a required or optional package for a specific course, you can request through Pearson Inc. that your bookstore stock the SPSS Statistics Student Version.)

## Clementine® GradPack

For students developing data mining skills. This package can be incorporated into courses that cover customer relationship management (CRM), Web mining, one-to-one marketing, database marketing, business intelligence, and more. This package includes the fully functional version of the software, a reference guide, and datasets.

- **Eligible Participants**—Students
- **Tools Included**—Clementine
- **Platform**—Windows and Mac
- **Limitations**—No case or variable limits
- **Where to Buy**—Instructors: you can request that your bookstore stock this package, or contact SPSS Inc. Sales at 1.800.543.2185 and select menu option 2.

## SPSS Statistics Faculty Pack™

SPSS Statistics Faculty Pack was created to provide an easy and cost-effective means for educators to include statistics and quantitative methodology in their course curricula. SPSS Statistics Faculty Pack combines the powerful statistics of the full SPSS Statistics suite into an easily accessible product.

- **Eligible Participants**—Post-secondary educators
- **Tools Included**—SPSS Statistics Base plus: SPSS Advanced Statistics, SPSS Regression, SPSS Conjoint™, SPSS Categories™, SPSS Custom Tables, SPSS Forecasting, SPSS Exact Tests™ (Windows only), SPSS Complex Samples™, SPSS Missing Values, SPSS Data Preparation™, SPSS Decision Trees, SPSS Neural Networks™, SPSS EZ RFM™
- **Platform**—Windows, Mac, and Linux
- **Limitations**—No case or variable limits. Package is for academic teaching use only.
- **Where to Buy**—Lease a copy for 12 months at [www.e-academy.com](http://www.e-academy.com).

## Textbook bundles

### SPSS Statistics Integrated Student Version (ISV)

Content is the same as Student Version, but this product is bundled with textbooks.

- **Eligible Participants**—Students
- **Tools Included**—SPSS Statistics Base
- **Platform**—Windows
- **Limitations**— This software allows up to 50 variables and 1,500 cases. SPSS Statistics command syntax and scripting and automation capabilities are unavailable. Add-on modules cannot be used with this package. Package is for student home use only.
- **Where to buy**—How to buy/bundle software in your textbook: if you are an instructor interested in using a book already bundled with the ISV, or an author interested in bundling your book with the software, e-mail [books@spss.com](mailto:books@spss.com) or call SPSS Inc. Sales at 1.800.543.2185, and select menu option 2.

### Academic Author Program

Are you an academic author who would like to write an SPSS-related text or bundle SPSS Inc. software with your book? Contact [books@spss.com](mailto:books@spss.com) for more information.

## Multi-user licenses

You may also consider purchasing a multi-user license for your institution rather than having faculty and students purchase individual copies. Choose from the following options, which are for on-campus installation or educator home use.

### SPSS Statistics Site License

Install SPSS Statistics software on individual machines and on educators' home machines with a site license. Licenses are determined by the number of copies in circulation (a "copy" is defined as belonging to a specific, named faculty member, staff member, or lab station).

- **Tools Included**—Any combination of SPSS Statistics Base plus: SPSS Advanced Statistics, SPSS Regression, SPSS Conjoint, SPSS Categories, SPSS Custom Tables, SPSS Forecasting, SPSS Exact Tests, SPSS Complex Samples, SPSS Missing Values, SPSS Data Preparation, SPSS Decision Trees, SPSS Neural Networks, SPSS EZ RFM
- **Platform**—Windows, Mac, and Linux
- **Where to Buy**—Annual and perpetual licenses are available. Call 1.800.543.2185, select menu option 2, and ask to be connected to the SPSS Inc. representative for your school.

### SPSS Statistics Network License

Install SPSS Inc. license management software on a server, providing access exclusively to users with network access, with an SPSS Statistics network license. Licenses are determined by the number of simultaneous users (non-specific people) who access SPSS Statistics at any given time. An SPSS Statistics network license is a cost-effective way to extend access to many users. It also enables you to designate a certain percentage of licenses as commuter licenses, which licensed users can check out. This enables network license users to run SPSS Statistics without connecting to the network and the license manager. For example, faculty and staff can use SPSS Statistics software on a university-owned or controlled computer from home or while attending conferences.

- **Tools Included**—Any combination of SPSS Statistics Base plus: SPSS Advanced Statistics, SPSS Regression, SPSS Conjoint, SPSS Categories, SPSS Custom Tables, SPSS Forecasting, SPSS Exact Tests, SPSS Complex Samples, SPSS Missing Values, SPSS Data Preparation, SPSS Decision Trees, SPSS Neural Networks, SPSS EZ RFM
- **Platform**—Windows, Mac, and Linux
- **Where to Buy**—Annual and perpetual licenses are available. Call 1.800.543.2185, select menu option 2, and ask to be connected to the SPSS Inc. representative for your school.

*These licenses are available for educational institutions located in the U.S. and Canada only. If your institution is located in another country, please contact your local office for details about licenses available to you.*
